Reading This Manual

The purpose of these modules are to emphasize the core policies and procedures of the SET program. This information will be used to provide the skills training necessary to build the foundation of Service Excellence for all Puff n' Stuff Catering team members.

Throughout this manual you will find (4) different icons each symbolizing an important tidbit of information that will assist you while on the job.

TEAM WORK TIP → TIP

Teamwork is the “cooperative or coordinated effort on the part of a group of persons acting together as a team.” These morsels will help you to function a single and effective unit.

EFFICIENCY TIP → TIP

Efficiency describes the extent to which time, effort or cost is well used for the intended task.. These tidbits will help you to save time and ensure the accuracy.

SAFETY TIP → TIP

Maintaining proper food handling standards and staff safety are key elements on any event. These tidbits are reminders on important regulations and guidelines that will keep everyone smiling.

GLOSSARY WORD →

Important service and culinary based definitions. All service team members are expected to know every glossary word found within this manual.

Other approved Puff 'n Stuff Catering training manuals available for continuing education include: Culinary, Lead Event Chef, Supervisor and Bartender.

Additional resources including training videos and photos can be found on www.flickr.com.

Taking The Lead

Being a great Chef means many things: Having a palate, self discipline, possessing an aptitude for the game, reverence for history of ingredients and traditions, anticipation of your guests' desires and blending it all with your personal vision. In addition, combining great chef traits like coordination, planning, discipline, resiliency are an absolute must while leading an off- premise event here at Puff 'n Stuff Catering. Your responsibility, and ultimately your challenge begins by quickly ascertaining the expectations of the guests, while leading and motivating your team of *culinarians* that you may have just met. Tasks include identifying strengths and assigning tasks such as reviewing paperwork, retrieving food and information from the Chefs at the commissary, driving to multiple locations, creating an off-site kitchen, organizing stations, setting up a method for HACCP requirements all in a two hour window, just to name a few.

So **Think, Focus** and let the fun begin!

Lead Event Chef Master Checklist

As the Lead Event Chef, it will be your responsibility to ensure that all steps on the master checklist have been completed. This checklist is divided into two parts.; Part A is to be completed at the PnS Commissary and Part B is to be completed on site at the event.

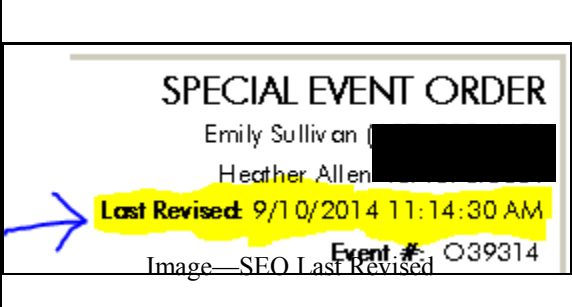

Lead Event Chef Part A (To Be Completed at the PNS Commissary)	
	1. Check Paperwork; Verify kitchen Copy of SEO with your copy for assurance that you have latest revision. (note/print all last minute update/changes affecting the production for communication) (DBoR=Chefs Boards)
	2. Review Paperwork with Supervisor
	3. Debrief with Sous Chef production, SEP and/or Exec Chef, note updates and changes accordingly
	4. Conduct HACCP recording for production, gather food safety, tools, Ice packs and cool down Vehicle 20-30 minutes prior to depart.
	5. Check that SEO on the tram is last revision. Begin checking food tram with expo Sous Chef.
	6. Debrief with warehouse and affirm familiarity with all equipment.
	7. Create your onsite execution plan, and confirm you have proper tables, slim jims, wrap, pans, tools, burners, and sundries
	8. Review Road Notes Report, and ensure that garnishes and utensils are loaded up according to event/culinary needs.
	9. Verify pack mise-en-place is set (utensils, seasoning kit, oil, towels)
	10. Final verification of all trams, check garnishes, ASSURE Bread, Chips and dry and room temperature food Items are included
	11. Verify and review all supporting documentation, Site info, special needs, Road Notes, Visual Aids, etc.
	12. LEAVE ON TIME ! Keep Time on your side - Load cooled vehicle with wrapped food trams 10 minutes prior to departure time. ANY DELAYS NOTIFY M.O.D. * ENSURE that you take a roll of shrink wrap with you for the breakdown.

Administering the LEC Checklist Part A (Completed Onsite at Commissary)

1. CHECK PAPERWORK

Check Kitchen Copy of SEO with your copy for verification of final revision. Notate/print all last minute update/changes affecting the production for communication to your team.

FINAL REVISIONS are hanging on the chef boards.

GLOSSARY TERM → PnS ACRONYMS

- SEO—Special Event Order (BEO or contract with all the final details)
- HOD- Hors D'oeuvres (appetizers)
- SEP—Special Event Planer (sales person assigned from PnS)
- SEC— Special Event Coordinator (sales assistant assigned to the SEP)

2. REVIEW OF THE EVENT PAPERWORK

Special Event Order (SEO)

- Meet with your Event Supervisor upon arrival to the Puff 'n Stuff Catering commissary and review the SEO as a team. Your Event Supervisor may have additional information from the Special Event Planner that could affect the execution of the meal service.
- Cross check the last revision date of the SEO posted to the individual speed racks with the copy attached to the warehouse pack sheet.

It is especially important to review timeline details, special meal notes, and discuss venue specifics if the event location is unfamiliar to either of you.

- Read all notes on kitchen SEO and discuss questions with the Expediting Chef.

- Make additional copies of the SEO for your road chefs meeting onsite. You want your team to have as much information about the event available to them as possible!

Pack Sheets

- Cross check the pack sheet with the SEO, review, and check the event vehicle for the proper equipment necessary to execute your event.
- Address any questions or needs with the Warehouse Manager or any available manager.
- Double check to ensure that you will have tables for food and kitchen prep if none are supplied by the venue. (Ex. Staging in a client’s garage)

Road Reports

- Road reports for your event will be distributed to you prior to your departure from PnS.
- Road reports are menu documents that identify any special notes on the SEO and highlight each menu item, the ingredients, preparation and cooking method/times, and photos of the item.

3. MEET THE CHEFS—CHECKING OFF FOOD

Debrief with the Chef/Expo person (If you are a Super Culinary See SEP as well)

Verify special requests, discuss plating design, and note any changes or dietary needs.

4. CONDUCT HACCP AUDIT

- Check / Log Temperatures, gather Icepacks, Ice Blankets, Cambros or whatever is needed to keep food in proper health code condition.
- Cool down vehicle 20—30 minutes prior to departure

5. CHECK THAT SEO IS FINAL REVISION ON THE TRAM, CHECK OFF FOOD WITH EXPO CHEF

Speed Racks

- Check off food items on your speed racks together with the expediting chef.
- Highlighted items on the SEO copy posted to your speed rack indicate that the food item has been produced and loaded onto the cart.

- Check off each individual component of the menu item to ensure that all parts of the dish have been pulled for you. Alert the expediting chef or manager on duty of any missing items.
- Count individual proteins. A small overage of additional protein servings will be sent to account for any accidents that may happen onsite.

A 5% percent overage will be sent for event guest counts under 90 and a 3% overage sent for parties over 90.

Dry Goods and Bakery Items

- Both items are stored in the production kitchen and are labeled with the SEO number and date.
- Dry goods including: breads, bread baskets, and crostini
- Bakery items including: cookies and pastries.

Frozen Items

- Frozen items like French fries or ice cream will be stored in the deep freezer until your scheduled depart time from PnS.
- Items will be labeled with the SEO number and date.
- Dry ice will be sent in a white Styrofoam cooler for items that must remain frozen until prep time onsite.

EFFICIENCY TIP → INSTRUCTIONS FOR USE

If you are unfamiliar with any food on your menu, please ask the chef for details on the preparation, presentation, and execution of the item.

- As the Lead Event Chef, it is your responsibility to retrieve these items and load them onto your event vehicle.

6. DEBRIEF WITH WAREHOUSE

Check for last minute adds and affirm familiarity with all equipment, or get information on the use.

7. CREATE WITH ONSITE EXECUTION PLAN

- Create kitchen layout and plan
- Assign tasks to team members

- Plating needs, holding cabinets, tables, pans, tools verify burners
- Sanitation needs, trash cans, hand wash, and gloves

8. REVIEW ROAD NOTES

Ensure that all details (tables, utensils, accompaniments, garnishes) are noted to plan.

These notes are developed solely for you, the Event Chefs and will answer most food questions. NOTE: The kitchen is reviewing them to facilitate a fluid hand-off of product. They will notify you of any changes to the menu items

GARNISH READINESS

- As the Lead Culinary, you are responsible for pulling appropriate garnish for any butler passed items.
- Use floral and fresh herbs. If there are specific garnishes or “looks” for the butler pass plates, you will be given instructions by your Event Supervisor or notes may be located on the SEO.
- Think simple stylish and sleek!

9. VERIFY PACK MISE-EN-PLACE (TOOLS AND COOKING UTENSILS)

- You will need various tools to complete your culinary tasks onsite.
- Tools can include spatulas, pots, sauté pans, spoons, ladles, and kitchen tongs. These items can be found throughout the production kitchen or the chef aisle in the warehouse. Carefully think through the procedures you will have to perform to finish the food items you have on your event so that you can pull all of the necessary items prior to departure.
- Demitasse spoons and cocktail forks for garnishing items with sauce, salsas, or small items (ex. Pomegranate seeds on ahi tuna).
- Ensure that any cooking equipment that is being used on chef attended action stations or in a client’s kitchen is in good condition and presentable for front of house use.
- *For example, do not pull burnt or damaged sauté pans for a pasta station.*

PLATTERS, BOWLS, AND PORCELAIN SERVICE WARE

You are responsible for pulling any porcelain service ware for dry goods like crackers, crostini, or chips and bowls for condiments such as dipping sauces, salad dressings for buffets, etc.

PUFF ‘N STUFF CATERING

NOTE: Some sauces may already be sent in bowls for you on your speed rack.

When cooking in a client’s private kitchen or displaying ingredients on an action station, you must pull enough porcelain service ware to create a “show kitchen” set up. Food product should never be displayed front of house in plastic fish tub containers or deli style containers.

BUTLER PASS NEEDS

- White porcelain platters are the Puff ‘n Stuff standard for tray passed service.
- Plan for (1) butler pass tray per menu item plus 1-2 additional for back up.
- Small ramekins for sauces that will be presented on the side for guests to dip.

TEAM WORK TIP → TEAM SUPPORT

Remember that you are setting yourself up with a mini kitchen that you can work from with no other available resources so plan strategically!

VERIFY ADDITIONAL TOOLS

- Pan spray
- Salt and Pepper
- Oils
- Foil wrap and saran wrap
- Additional chafer inserts (especially when cooking items at stations)

10. FINAL VERIFICATION OF ALL TRAMS

REFRIGERATION AND TEMPERATURE CONTROL

- Pull cold plates, ice packs, and insulated tram covers to protect your food from spoilage while you prepare to set up onsite for the event.
- Blue cold plates are located in the deep freezer and should be utilized during transport on the event vehicle to and from the event.
- Temperature-sensitive items like seafood, cheese, cream-based sauces should be set on cold plates and then immediately stored in refrigeration when possible.

DON'T FORGET—LAST MINUTE GRABS

Freezer Items, Ice Cream, Cakes, Bread, Crackers anything not secured to food tram

11. VERIFY ALL IMPORTANT DOCUMENTS

1. Road notes
2. Execution Plan
3. Visual Aids (station diagrams)
4. Site information
5. Special needs
6. Tasting pics / plating drawings

SAFETY TIP → SANITATION

200 ppm bleach solution = 1 (1/2 cap) tsp to 3 glas of water

12. KEEP TIME ON YOUR SIDE

Wrap and load food trams 10 minutes prior to departure time.

Cambros Are a Chef's Best Friend

At PnS we have gone to lengths to supply you will all the wares needed to be successful, **Cambros** containers are one of these. Please utilize them!

Cambro Chill Plate inside of Cambro Insulated Cooler Pull From Freezer)

Cambro Chill Plate (Pull From Freezer)

Cambro Insulated Cooler

These carriers maintain the temperature of your food while resisting heat up to 200 degrees Fahrenheit. Features durable exterior handles for easy carrying and stacking.

EFFICIENCY TIP → Using CAMBROS

Cold Use - Cool or Freeze the Cambro

Hot Use - Fill with Hot Water or run through Dish Machine to heat up

NOTE: Never put sterno inside to warm..

Lead Event Chef Master Checklist B

LEC3

Lead Event Chef Part B (To Be Completed at Onsite at Event)	
	1. Walk Event Space, FOH and BOH with the Supervisor, for setup and overall layout. *Lead and assist team on unloading vehicles to proper placement of equipment.
	2. Confirm arrival and check in all staff, verify uniform correctness
	3. Assign areas for proper culinary preparation: Sanitation, breakdown, cooling, cooking area, hot boxes, plating, Butler pass. Including Virtual Break Room
	4. Lead team to unload truck. Using the planned timeline, lead team in safely unpacking and preparing BOH stations, assist FOH for buffet and station setups according to plans. (setup with breakdown in mind)
	5. Review Road Note with team, Ensure that methods and garnishes are understood according to event/culinary needs.
	6. Verify Guest Count, timeline, and double check special needs, i.e. children and vendor meals, etc
	7. Expo service, Quietly, efficiently, timely, neatly and professionally per plan. C.T.T.s
	8. Pack leftovers for guests as needed
	9. Lead breakdown, repack (neatly; all like items in like areas, all unused chilled food gathered to a rack or cooler to be returned softly stored properly, all like dirty pans combined) and Lead vehicle reload
	10. Walk venue or space with supervisor to verify cleanliness and all equipment was retrieved
	11. Return Vehicle, store food as needed in cooler, Complete all Paperwork and reports

**SAFETY TIP → LOADING EQUIPMENT / LIFT GATE USE**

Watch your feet when using the truck lift gate.

Administering the LEC Checklist Part B (Completed Onsite at Event)

1. WALK CULINARY AND EVENT SPACE

- Tour site with the Supervisor
- Lead and assist team on unloading vehicles—It is Imperative that safety comes first, take 3 minutes and train the staff on the common hand signals for truck backing up and where to stand and how to hold trams while loading in.

2. CONFIRM ARRIVAL AND CHECK IN ALL STAFF, VERIFY UNIFORM CORRECTNESS

- Contact MOD (manager on duty) if staff has not arrived within 15 min of call time

3. ASSIGN AND SETUP KITCHEN AREAS

Assign areas for proper culinary preparation:

- Sanitation, breakdown
- Cooling, area
- Cooking areas
- Hot box locations
- Plating areas
- Butler pass execution area
- Virtual Break Room
- Designate areas for backup plates and hotboxes for buffet

Image: Sample Event Space BOH area

TEAM WORK TIP → USE CAUTION

- Spend some time training your team on the rules and cooperation needed for backing up trucks into loading docks.
- Always use extreme caution when loading and unloading trucks.

4. LEAD TEAM TO UNPACK AND SETUP

Using the planned timeline, lead team in safely unpacking and preparing BOH stations, assist FOH for buffet and station setups according to plans.

5. Review Road Note with team, Ensure that methods and garnishes are understood according to event/culinary needs.

6. VERIFY GUEST COUNT, TIMELINE, AND DOUBLE CHECK SPECIAL NEEDS, I.E. CHILDREN AND VENDOR MEALS, ETC

Relay all pertinent information to your team and double check assignments

7. EXPO ONSITE SERVICE

Key : Quietly, efficiently, timely, neatly and professionally.

Perhaps besides sanitation, the most important piece of the Event Chefs duties while onsite is Counting, Timing and Temperature (C.T.T)

COUNTING

There are many things to organize onsite, one of the simplest is the keep counts at all times. Items necessity to keep and note counts:

PLATES + PROTEINS + PANS AND TRAYS (BASIC MATH IS YOUR FRIEND)

Plates

- Plates in the hot box—Very Important that you know the exact amount of plates being warmed up for dinner, and how many in each box (this will assist you later when you are judging the amount of bulk panned food is being portioned)
- Plates on sheet pans, trays and racks / when pre-plating salads and desserts tray the same amount on every pan and the same amount per rack.

Required Cooking Temperate		
Item	Temperature	Duration
Poultry Products, Stuffing	165°	15 Seconds
Ground Beef, Pork, Flaked Meat	165°	15 Seconds
Eggs, Fish, Lamb, Beef	145°	15 Seconds
Rare Roast Beef (pull at 125 to carry over to 130 and not over cook.	130°	15 Seconds
All other foods, and reheated foods	165°	15 Seconds
Corrective Action Continue to cook to required HACCP temperature for specific product – reach temp within two hours		

EFFICIENCY TIP

When using the smaller ovens,

DO NOT overcrowd and let the heat recover.

**EFFICIENCY TIP → COUNTING**

Fill pans by placing the same amount of items or products in every pan. When possible, line up in rows so it is super easy to count and keep track.

Proteins

Proteins should come to you counted and organized with equal amounts per pan, if they do not please rearrange so that you have the same amount in every pan. Again this will save the headaches when the heat is on and service is being requested.

Plating

- Counting also mean judging, averaging, and/or portion control.
- When plating from bulk items like salad, vegetables and sauces, that come packaged to you in a bulk method. its very important to know how much the Chef has sent to you, what portion size, and to judge the quantity and the amount of plating you have to complete.
- A simple way to do this is to divide the batch into a simple fraction (i.e. if you have a tub of crumbled goat cheese for 60 guests, divide the tub visually or physically into thirds and when you have plated 20 portions you can easily access you still need to have the other 2/3rds still remaining for the balance to be completed, and if you don't then you need to adjust before you get too much farther along.

**TEAM WORK TIP → CHATTER**

Speed , focus and accuracy is very important during a plate up. Keep chatter and talking down to a minimum, and solely about the topic of the plate up. Preferably from the Chef!

**EFFICIENCY TIP → TIMING**

Create a timing schedule by working backwards. For example, if the event is at 7:00pm, the food needs to be ready at 6:30pm, you have one over (5 pans), 10 pans of food (2 ovens worth), it will require 30 minutes for each full over (1 hour total), so this means that you need to begin heating the food no later than 5:30pm.

Refer to Culinary Report for more help.

Common Delivery Amounts

Bags of greens	50 portions
Thick sauce	2 oz per portion
Thin Sauce	1.5 oz pp
Jus	1 oz pp
Starch	35 portions to a hotel pan
Vegetables	35 portions to a pan

EFFICIENCY TIP → MOVE WITH A PURPOSE

Understand and analyze the space you are passing in. Identify where the guest entrance(s) are, the service door, and any main focal points or displays in the area that guests will gravitate toward. When passing food or beverage, look for new guest arrivals and approach them with a warm smile! Never wander aimlessly.

TIMING

Timing is crucial! As a leader on site you must understand the timeline! You and your supervisor need to be in sync at all times to ensure the delivery and meet/bypass expectations.

Use an aid like the Culinary Report or your service script/delivery plan to ensure that each step of your event from the culinary side will get completed and you have enough time to heat and plate all of the items. (without heating to far in advance)

OVEN COOKING TIME CHART					
FOOD	Turbo	Full Size Oven on sheet pan	Full Size Oven in Chafing pan insert	Hot Box slow cook	OVEN TEMP
4 oz Chicken	25-35 min	8-10 min	25-30	DO NOT	350°
6 oz Chicken	30-40 min	10-12 min	30-35 min	DO NOT	350°
Beef, steak cuts	20-30 min	8-10 min	15-20 min	DO NOT	350°
Beef, short ribs	30-35 min	NA	20-30 min	DO NOT	350°
Fish	20-30 min	7-10 min	15 min	30-45 min	350°
Beef Wellington	22-30min	18-22 min	DO NOT	DO NOT	360°
Strudel	20 min	15 - 18 min	DO NOT	DO NOT	360°
Bacon - Reheat	12-15 min	5-6 min	10-12 min	20 min	350°
Quiche Reheat	45 min	NA	30-35 min	60-75 min	325°
Mac & Cheese	35-45 min	NA	30-35 min	60 min	350°
Potatoes	30-40 min	10 min	20-30 min	DO NOT	360°
Vegetables	20-25 min	DO NOT	15 min	30 - 40 min	350°
Hors D'oeuvres					
Crab Cakes BP	5-8 min	4-5 min	DO NOT	DO NOT	360°
Sliders BP	5-8 min	4-5 min	10-12 min	20 min	350°
Chicken skewer BP	5-8 min	4-5 min	10-12 min	DO NOT	350°
Beef Wellington BP	10-15 min	8-12 min	DO NOT	DO NOT	360°

TEMPERATURES

Another crucial piece of your world is temperature control. Understand and control all of the important temperatures

Temp Terms

Low Oven	275-300°
Slow Oven	300 - 325°
Avg / Std Oven	350 - 365
Hot Oven	400 - 450
Food serving temp	140 and over
Food Holding temp Cold	Below 45
Food Holding temp Hot	Above 140
Danger Zone	45 - 140

Lead Event Chef Specialty Cookery

CAVE COOKING 101 (FIELD OVEN COOKERY)

Best Used For...	Not a Great Solution For ...
• Steaks • Carving Filet Mignon • Vegeta- bles • Starches • Fish	• Beef Wellington • Pastry Strudels • Soufflés • Any cooking where controlled temp is es- sential

SAFETY TIP → CAVE

Never Cave cook in a HOT box with a glass or plastic door front. (It will melt or crack)

Cave Cooking is a form of cooking as a last resort, when power or conventional ovens are not an option. By utilizing a metro (aluminum hot box) and using 12 sternos, (6 on the bottom and 6 in the middle) we can achieve 350 degrees inside this make-shift oven.:

1. 20 minutes prior to use light the sternos and top each heat source with two sheet pans so that the food above this heat does not get too much direct heat.
2. Then line the rest of the hot box with perforated pans / racks or just load the food on its transportation pan into the oven.
3. Rotate food as needed

Leading The TEAM At An Action Station

Managing a team can have its challenges, here are some tips when you are leading a team that is client facing

- ⇒ Setup Station as per diagram and outline, be creative but keep clean and sleek
- ⇒ Remind them to have fun, smile and look calm (even when not calm inside)

PUFF 'N STUFF CATERING

⇒ Review the station so that all mise-en-place is set and the station has a flow according to the setup sheet

LEADING YOUR TEAM AT ACTION STATIONS continued...

- ⇒ Make sure the product is fresh and styled
- ⇒ Train them how to plate multiple plates— **Be sure to always have an area to plate 4-6 plates simultaneously .**
- ⇒ Keep proteins and ready to cook food on ice or chilled as needed!

TIP → Plating TIPS

-CAAS—Plating three to six plates simultaneously will keep the line moving and portray a restaurant style experience delivered via a professional

-BOH plating—Plate like a conveyor use the heel of your hands to slide plates to keep clean

⇒ Garnish and sauce each plate identically, the station is not a part of the buffet it is a finished chef inspired entrée.

8. PACK LEFTOVERS FOR GUESTS AS NEEDED

Image 12.3 Consolidated tram ready to rewrap for the commissary return trip

- Package in a puff bag with clear takeout containers
- Do not scoop food from buffet—do all food packing in back of house

9. LEAD BREAKDOWN

Repack (neatly; all like items in like areas, all unused chilled food gathered to a rack or cooler to be returned softly stored properly , all like dirty pans combined) -

Verify that all items are packed in a secure manner and are organized by categories i.e. food product, waste, pans and heavy ware washing, glass platters and fragile items

Lead vehicle reload. To again be organized and tightly packed and secured

Extra sauces and liquids need to be covered and kept from spilling

Image.12.4 consolidated pans

Garbage—If it must be returned to the commissary, double bag and tie securely

Linens - Must be in proper linen bags (dirty in mesh)

Fragile Items - glass cubes, risers, decanters, wooden bookshelves, etc. must be repacked in bubble wrap or pads as delivered.

Make sure you RED TAPE or RED TAG all broken, cracked, chips, unusable, or malfunctioning equipment or tools for immediate repair and recirculation.

9. WALK VENUE OR SPACE WITH SUPERVISOR

Verify cleanliness and all equipment was retrieved, Check Coolers and Closets, Clean out sinks,

SAFETY TIP → RETURNING TO COMMISSARY

If any suspicious characters are at the commissary when you return, leave or call 911.

remove trash and sweep and mop as needed

Remember we are guests... ALWAYS STRIVE TO LEAVE THE EVENT SITE JUST AS CLEAN, IF NOT CLEANER, THAN YOU FOUND IT!

10. RETURNING FOOD TO THE COMMISSARY

If you have perishable food to return to PnS at the end of the event, **it must be kept within proper temperature zones during the event** and until it returns to the commissary during transit.

Please fill out a culinary report to log all the food being returned.

Only store clean, reusable food onto the speed racks that you are returning to the commissary. **Never return dirty kitchen tools, service ware, and cooking equipment on these food trams.**

Accessing The Walk-In Cooler (Orlando)

- A key to access the walk-in cooler is attached to each set of vehicle keys.
- Unlock the padlock from the metal bar that is locked across the outside walk-in cooler door.
- Roll in any speed racks or individual items into the cooler.
- Once inside the cooler, do not open the doors to the kitchen, it will set off the alarm.

Accessing The Walk-In Cooler (Tampa)

Roll in any speed racks or individual items into the cooler. (key with code on door as backup)

Reporting, Administration & Technology - LEC4

Reporting & Administration

Along with leadership comes responsibility, and one such example is reporting. Reporting is a very important management tool to facilitate consistency, structure and accountability.

This is your chance to have a voice at the center of the process development nucleus. As well as hold your team mates and the managers in the company accountable for the processes we employ. We truly want to support and assist our event team with anything possible.

QR-Codes

We are beginning to utilize QR Codes like the one above for many things here at PnS i.e. equipment info, training, HR info.

To use: Download a QR code reader on your smart phone or tablet and simply scan.

We have developed a reporting and methods of submitting reports that we ask you follow !

- ⇒ Checklists, this is your roadmap, follow these and 90% of the mechanical pieces of your job will be touched.
- ⇒ Culinary Event Template - This is mainly for you to line up the food heating tasks and food handling.
- ⇒ Road notes— Detailed report of menu items, pictures and how-to's
- ⇒ Fill out the Lead Culinary Report LCR(this is an end of the night accounting of the event from a culinary viewpoint)
- ⇒ Time Keeping - assist your supervisor in tracking your culinary team
- ⇒ VISUAL AIDS—Station setup Guides (Coffee station, Bars, CAAS) and diagrams are available for all station setups.

Technology PnS Tablets

- ⇒ Tablets are assigned to Supervisors, they contain access to Email, Internet, Puff Flicker (pictures and videos) Flickr.com search PNS63 and tag to find images, videos and more event related info.
- ⇒ MapQuest and directions
- ⇒ HipChat—a chat room to connect to all of puff and your mgrs. For transferring bulk photos or messaging your workmates
- ⇒ Links to LCR and ESR online reporting
- Webex—Schedules and Time Keeping
- Coming Soon online training depot

Vehicle Operation

Puff 'n Stuff Catering owns a fleet of 30 event vehicles including cargo vans, sprinters, 15' and 24' box trucks in order to load parties of all sizes! Your responsibility as the Event Supervisor (if approved to operate the vehicle under our insurance company) is to transport the event equipment in a company vehicle to and from the commissary. Hands on training to get behind the wheel of a van/ sprinter/ truck will also be provided to ensure that you are equipped with the proper knowledge and skill to safely operate one of our vehicles!

You and your team members are always ambassadors of Puff 'n Stuff Catering, even when on the road to your event. The behavior of the driver behind the wheel, the manner in which the vehicle is driven, and even how the vehicle is parked onsite is a direct reflection of our company and should represent us well!

Rules Of The Road

- **No one without a valid current driver's license, issued by a recognized authority within the United States, is permitted to operate a vehicle for Puff 'n Stuff Catering.** A copy of this license must be on file in the personnel office. You must have your driver's license **with you** in order to operate the vehicle at any time.
- You must be cleared by our designated insurance company to be covered under the corporate vehicle insurance policy.
- Should any incidents occur which cause your license to be suspended or revoked, said actions should be reported and all driving privileges rescinded until further approval is given.
- Please reference all traffic laws.

Vehicle Logs

- Each vehicle has a binder that holds information regarding insurance, worker's comp, employee disciplinary form, credit card authorization, company licenses, registration, etc.
- Before departure check the gas in your vehicle and complete the vehicle log binder.
- All drivers will need to fill out the vehicle log each time they operate a company vehicle.
 - ⇒ Date
 - ⇒ Name
 - ⇒ Beginning Trip Mileage / Ending Trip Mileage
 - ⇒ Beginning Gas / Ending Gas
 - ⇒ Time Out (This is your depart time from PnS.)
 - ⇒ Time In (This is your return time to PnS.)
 - ⇒ SEO # (last 4 digits in top right hand corner of the Special Event Order)

Broken Equipment Form

- A "Broken Equipment" form is also housed in the vehicle logs.
- This will be available for you and your teams to fill in if any equipment on the event is broken, damaged, or malfunctioning.
- RED TAPE and label or RED TAG all broken equipment.

Vehicle Operation
Retrieve vehicle keys from warehouse board. (If Rental Check for keys to re-enter building)
Start event vehicle and check gas level before departure.
Complete vehicle log per SOP.
Review directions on SEO. Account for any traffic or construction that might slow you down.
Review directions provided on SEO.
Adhere to PnS driving procedures while operating event vehicle.
AS NEEDED-Notify MOD/SEP if you will not be able to arrive at event venue on time.
Contact Service Coordinator or Manager if unable to reach MOD/SEP.
Identify proper load in space upon arrival to venue.

Smoking

- No team member, under any circumstance, is permitted to smoke in a Puff 'n Stuff Catering company vehicle to include: trucks, sprinters, cargo vans, and passenger vans.
- Smoking inside or near any company vehicle will lead to disciplinary action up to and including termination.
- Operating a motor vehicle of any type while under the influence of alcohol or drugs is prohibited. This applies to driving on public roadways as well as moving a truck or car within a parking lot or a driveway of any kind.

Speed Limits and Traffic Violations

- Posted speed limits and other traffic directional signs will be obeyed under all circumstances.
- Tickets incurred for traffic infractions will be the responsibility of the driver, unless the ticket pertains directly to faulty vehicle equipment. Please report any faulty vehicle equipment on ESR , such as turn signals or brake lights that are not working properly, etc. If you realize before you leave the commissary, notify the MOD for a solution.
- The vehicle is considered your responsibility while entrusted to you and no unauthorized drivers are allowed possession of keys to the vehicle's ignition.
- No unauthorized passengers are permitted in the vehicles, and all approved passengers should be properly secured by seatbelts as required by Florida law.

Accidents

- Report any accidents involving company vehicles, regardless of severity, immediately to the Service & Training Manager and/or Warehouse Manager. You must report all incidents within (1) hour of the occurrence.
- Report and document damage to a PnS vehicle and/or any other vehicles or in the Event Supervisor Report with supporting photos.
- An incident report must be completed for any damage sustained to a company vehicle or property damaged by a company vehicle.

Vehicle Emergencies

- In the event that a company vehicle experiences any mechanical issues (i.e. engine failure, dead battery, flat tire), first notify the Warehouse Manager and/or Service & Training Manager to alert them to the situation.
- Each vehicle contains an information packet that houses the Puff 'n Stuff Catering vehicle registration, insurance card, as well as road side assistance and towing contact information.
- This contact information is located in a comprehensive vehicle binder placed in the cab of each vehicle.
